=The annual meeting of the Orthodox Cong. society was held in their vestry, Monday evening, January 15, the meeting being called to order by the clerk and organizing with Mr. E. O. Grover as moderator. The report of treasurer was highly satisfactory, showing all bills paid with balance in his hand. The report of organ committee was interesting, showing nearly every dollar (about \$3000) subscribed paid in and the organ practically all paid for. The officers of last year, without exception, were reelected, and are as follows:-

Clerk, P. B. Fiske; treasurer and collector, E. H. Norris; standing committee, Dr. Reed, A. Gooding, W. H. Muller; music committee, W. F. Sprague, H. W. Spurr, G. S. Cushman; auditor, A. W. Trow.

The appropriations for the year were \$2,000, use of parsonage and four weeks' vacation as the pastor's salary; \$1.000 and unexpended balance (about \$90) of last year for music; \$50 for treasurer and collector. The meeting was more largely attended than is usual, and was eminently satisfactory to all concerned.

=Nearly every one is to-day interested in affairs in South Africa, where the people of a large section are defending their territory from the advance of a large force of British soldiers. Capt. George F. Hollis was U. S. Consul at Cape Town for a number of years and in his official capacity and otherwise visited and became familiar with the territory where hostilities are now progressing and the section over which the world-famous Oom Paul exercises sway. Arlington Improvement Association has secured Cupt. Hollis to give a lecture or talk on this matter, illustrating the same with stereopticon, and extends a cordual invitation to any and all interested to be present in Town Hall, Monday evening, Jan. 22, at eight o'clock, when Capt. Hollis will speak as we have indicated. All seats free and all are invited.

=Friday, Jan. 12th, the ladies of the Building Fund Association, the well known auxiliary of Post 36, held their annual meeting in Grand Army Hall, at about eleven-thirty o'clock in the forenoon. The old board of officers, with but one exception, that of Mrs. G. W. Knowlton, whose resignation was imperative because of illness, was reelected. The organization is officered as follows :-Prest., Mrs. Nellie M. Farmer; vice-prest., Mrs. Geo. H. Rugg; sec., Mrs. Geo. H. Thayer; treas., Mrs. Winfield S. Durgin. Following the business meeting there were over fifty who dined at the generously provided board and at the whist party twenty-three tables were required to accommodate ladies present. The six prizes awarded were all won by non-residents.

=The Christian Endeavor meeting to be held Sunday evening, at the Baptist church, will be a missionary meeting. The missionary committee will be in charge and a special program has been arranged. The evening will be devoted principally to the most interesting work among the Telugus. The hour is 6.15 and any interested are cordially invited.

WASHINGTON LETTER.

Unreliable Newspaper Correspondents-Free Baths and Shaves For Statesmen-Social Season On.

[Special Correspondence.] Prominent officers of the government are complaining of a species of annoyance to which occasionally they are subjected and for which they admit their inability to suggest or provide an adequate remedy. From time to time very sensational and scandalous reports have appeared in newspapers printed out of the District of Columbia. They charged officers of the United States with practices deliberately unlawful and if true would have rendered the offenders subject to be deprived of office and of their personal liberty. Promptly upon the appearance of these stories the representative or representatives of the papers in which they were published have appeared beeither to deny or explain them. On more than one occasion a reporter has made his way to the man he sought to say that he was not responsible for Washington dispatches carrying grave charges, but that dispatches not sent by the offices here, or dispatches sent what purpose the writers could not explain. The result of this practice and of the annoyance experienced by men who find themselves arraigned before an irresponsible tribunal is to make public officers more reticent to those with whom they can speak frankly without fear of being misrepresented. them are blackguards, unfit to be admitted to confidence. The public officer here cannot be properly complained of as too reticent. And the body of correspondenes generally has justified the confidence reposed in its members. Most of them know more things that they could print, but do not, than would be comfortable for public men who might see them in print.

Free Baths and Shaves.

It is not generally known that Uncle Sam furnishes his legislators with bathtubs and other accessories of cleanliness, but it is nevertheless a fact. In the basement of the capitol are located the congressional bathrooms, where the statesmen cleanse their cuticle at the expense of the peois somewhat smaller. They are patronized by the statesmen at all hours of the day. Attendants are provided at the expense of the government. The fact that the bathrooms are almost constantly occupied indicates the extent to which the privilege of the free extra charge is made for a bath, usually wait until they reach the capitol to enjoy this luxury. Not only are the statesmen furnished free baths, but barber shops are provided for their use. These are well patronized, as no charge is made, and the barbers turn many an honest penny. They receive good salaries from the government and at the same time get tips.

Social Season Now On. New Year's day marked the opening of the official social season in Washington. From now until Lent begins there will be the usual mad rush to dinners, luncheons, receptions, teas and box parties. The president opened the season at the White House at 11 o'clock on Jan. 1, when he received the diplomatic corps, supreme court, army and navy officers and public officials generally. Those holding an official position under the government above the cierical grades were under orders to present themselves to the chief magistrate, and for two hours or so, the president devoted himself to the painful process of shaking hands with his subordinates, winding up with the general public. Then the secretary o state gave a formal breakfast to the diplomatic corps, and in the afternoon the families of cabinet members and of the admiral and major general commanding received at their homes.

Every officer of the army and navy. both active and retired, was expected to present himself at the White House, and they with the diplomats furnished an aggregation of brilliant uniforms such as can be seen nowhere else in the country. The official term of mourning for Vice President Hobart having expired, the indications are favorable for a brilliant social season.

The Abber Case. The government has at last disposed of the case of the fillbuster Abbey. ters by Admiral Dewey last winter, and Secretary Long has ordered the vessel restored to its owners, Spitzel & Co. of Hongkong. The decorators supplied three large Teel, Edith R., ple. On the house side there are 15 fire scenes (one for stage and one on tubs, while on the senate the number is somewhat smaller. They are natronblems, and about these and from the Winn, Alice L., centre ceiling the bunting used in decora tion was suspended. It was in the main red and white, with touches of blue, but the national emblem was not forgotten, and lace was used at the windows. The bath is appreciated. Senators and decorators also furnished a large gilt members who live at hotels, where an sign over the entrance, "Eureka One, -First Annual Ball," and over the stage "Arlington Vet. Firemen's Ass'n." All these in place, Mr. LeBaron began his scheme, introducing a large tri colored star in the centre ceiling, pendant from which was the "Eureka" pipe from which the victorious stream was thrown, red electric lights being placed at each end. A placard from this gave the data of the Fall River victory. Over the windows electric stars were installed and all this volume of light added to the ordinary plant, made the room especially brilliant. Fire hats, old-time fire buckets, etc., were effectively suspended, the "Eureka" bell hung conveniently for calling the dancers, and the miniature fire engine of which the firemen are the owners, was in the centre of the stage, bearing the portrait of William F. Setchell, still living, who was the first foreman of "Eureka." Mr. W. W. Rawson sup- Hooker, Dr. E. Importance of Small Things. A very interesting characteristic of the fashions of today is the extraordinary amount of care which is given to the smaller details of the tollet-those little accessories and afterthoughts of which no one took the slightest beed some five or six seasons ago. The innumerable lace ties, cravats and jabots which play so important a part in the tollets of the moment offer a case in point, for without some dozen or so of these dainty little things no one's wardrobe can nowadays be considered complete. Now is the chance for those who possess beautiful little pieces of old lace to make a pleasant use of them, for they can easily be arranged, either as frills upon ties of glace silk or in the safer form of an applique on scarfs of panne or mirror velvet.

An Evening Bodice.

The accompanying illustration portrays a very pretty evening bodice. It is made of black taffeta veiled with black chiffon, wh h is encircled with three clusters of small tucks and garnished in the middle of the front with a large. conventional design worked in black and steel glittering paillettes. The de-

collete is outlined with a narrow dra pery of the filmy chiffon, falling from which is a frill of the same edged with a wee quilling. The drapery is carried over the arms and forms the only sleeve that the bodice can boast of. Straps of black velvet ribbon pass over the shoulders, while a deftly tied bow of the ribbon trims the left side.-Philadelphia Ledger.

HUMOR OF THE HOUR.

It was during Justice Sellers' receiving hours in his warrant chamber. Several people with supposed grievances had left his august presence bearing pleased expressions and little slips of paper that entitled them to complaints, when suddenly the door was jerked open roughly, and an agitated individual with a frost coated mustache and long, wind tossed hair appeared at the threshold. He gazed stupidly at the justice for a moment and then suddenly exclaimed:

"Is there any justice in Detroit?" "Yes," calmly replied Sellers. "I am a justice myself."

"Is there a gentleman left in Detroit?" continued the man, coughing out his words in guttural indignation. "Just a few of us left," was his honor's rejoinder.

"Are you an enlightened citizen?" "Hope so."

"Well, I was born in Kentucky, but I'm an Irishman. Shake! It's an insult to every citizen of Detroit, and I want the traitor brought to justice! Fetch the traitor to justice and redeem the fair name of the city!"

"What is it you want?" asked the perplexed justice. "Want a warrant for somebody, or do you take this for a convention hall?"

"Well, a man was robbed of \$50, and I want the villain brought to justice." "Are you an interested party?"

"Interested party? No, sir! No, siree! I'm a violinist. Sir, I have studied with the greatest masters of Europe. Interested party indeed! I'm a violinist, sir-yes, sir! And if I can't have justice here I'll go some place else. Yes. sir!"

And the distinguished violinist strutted proudly forth like a peacock on parade.-Detroit Free Press.

SHORT NEWS STORIES.

How Senator Perkins Lost a Vote. Beating a Trick Bet - New York's Executioner.

"Prior to his election as governor Senator Perkins was the senior partner in a general merchandise store at Oroville, Butte county, Cal., where he was very popular with both town and country people, being familiarly known to everybody as 'George,' " said Mr. Charles R. Lloyd of San Francisco to a Washington reporter.

"The majority of his customers, however, gave their allegiance to the Democratic party, but the future senator was so well liked that with few exceptions the Democrats of Oroville and vicinity declared for the Republican nominee for governor. The campaign was particularly lively that year, unusual interest being given by the fact that the Democratic candidate lived in the neighboring town of Chico, which is also in the county of Butte.

"My story, which is brief and without a moral, has to do with the loss of one vote that Perkins would have received but for being too magnanimous. There was a dyed in the wool Democrat, one Dennis O'Brien, who thought so much of the Republican candidate personally that he intended to break the record of a lifetime and vote the opposition ticket. But first he concluded to sound the gentleman most interested.

"'Well, George,' said Dennis, 'who air ye goin to vote fer?' He was told that as a matter of courtesy Mr. Perkins intended to vote for his opponent. 'Ye air goin to vote fer the Dimicrat, air ye? Well, that settles it with me. fer ye knows yersilf the bist, George. I'll foller yer lade and vote fer the Dimicrats too."

How He Beat a Trick Bet. "I will now prove to the honorable judge," said a defendant in the First district court in Newark, N. J., the other day, "that it is possible to eat

will now take these eggs in my right hand"-"No, you won't," interrupted Judge Guild. "I forbid the exhibition."

The man who wanted to devour the

raw eggs was Solomon Oury. Michael

"I WILL NOW TAKE THESE EGGS." Meyer, a horse dealer, had bet \$10 that a man could not eat two raw eggs on

an empty stomach. The wrinkle in this bet is that after the first egg is eaten the stomach is not empty. Oury, however, got around this technicality by swallowing both eggs at once. Michael Wragge, the and Meyer, claiming a foul, sued to get

it back. "I put both eggs in my mouth," Oury assured the court, "crunch them and reject the shells. Then before you can say 'Jack Robinson' I gulp down

the egg meat at one draft." "I saw him do it," said the stakeholder, Wragge.

"No such thing," contradicted Meyer. Then Oury produced two eggs and offered to repeat the feat. The court ruled that as the whole transaction was a gambling one it was illegal and void. The jury gave a verdict for the

plaintiff. Newark "sports" have been making the old egg bet for years. Large sums of money have changed hands at these egg matches.

Get Out of the Way!

"Get out of the way, old man!" Since history was first written, the coming generation has said this to the retiring, by act if not by word, and until the golden rule becomes the law of every the ears of the aging. Is the utterance an outrage upon the feelings of the venerable, kindly-disposed and well meaning man who has won honor and perhaps fame in the position he cannot discover but what he adequately fills, but which better judges know he only occupies? Perhaps. But is a public functionary often, if ever, the best judge of his real qualifications? We have known ministers who were keenly alive to the desirability of a change in some other parish, who have held on to their own places in spite of diminishing congregations and income, or limited privilege, and who have actually wondered, when a flat-footed request for a resignation was handed them, that some one had not hinted that their influence for good in a particular field was at an end. We have in mind a town official who said he had served long enough, and in whose behalf a public recognition of his seres was started by his real friends. To to be devoted to the work of the North of friendship with our fellow passengers, their surprise he had his name again presented in caucus and secured the nomination by a narrow margin; but he was defeated at the polls and the marks of be given. The management has been appreciation that would have made his last days his best days were never given.

It is sad that the man who has given the best years of his life in faithful service for another, should be forced to give place to a younger and more promising man, perhaps at the time when he most Brief News Items. needs the revenue acruing from his talent toil; it is even more so when the heirs tial agent upon whose back, peradventure, the builder of the fortune they enjoy mainly climbed to his high place in the business world; it becomes ingratitude of the most pronounced type when a rising generation forgets the years. sacrifices, sufferings, privations and toils of those who perished in saving a nation, and begrudges the redeeming of the pledges of the fathers to the survivors of the fierce conflict. But as we said at the outset, until the "golden rule" is the rule of every life, the dimning eye, the less firm hand, the not so elastic step must give place to that which is young sion and bright and quick and strong, and as it steps down and out, bear with the grace he can, "Get out of the way, old man!" for that is what it means, if no word is spoken. Happy, indeed, is he who by a sort of intuition, senses the situation and forestalls it by retiring with honor. "He's getting to be an old man now," said a friend to us the other day. Within an hour another acquaintance we met used exactly the same expression in regard to the first party. Is it strange that the poet should pray

To say that the Boston Museum has been literally stormed by the Boston and New England public since "The Roger Brothers in Wall Street" began its engagement there, would be stating the truth with absolute exactitude. Boston has not experienced such a thorough stirring-up by a theatrical attraction for a long time. The Roger's entertainment is three hours of real, hearty laughter without cessation and without vulgarity.

No one can appreciate this remarkable fun-show till he witnesses the jolly performance.

Later, before the party broke up, the thanks of the guests for the pleasant evening was voiced in a pleasant little speech, Mr. BHarry W. Pierce being the spokesman.

-Last Saturday evening the Misses Mary and Elenor Butler entertained a company of some thirty guests, chiefly out of town friends. The young hostesser were stylishly gowned in light tollettes and the guests were in similar evening costumes. Most of the evening was devoted to whist, handsome prizes being awarded at the conclusion of the playing. Caterer Hardy furnished an elaborate spread in the dining room. ROSES AND RUE.

- I sit in the shadow alone, sweetheart, Your roses are scenting the air, And I dream of our love troth long ago Down in the garden there.
- Marigolds, hollyhocks, prince's feather, Bowed low in the dim, soft light, As under the willow tree by the gate I kissed you and said, "Good night."
- Ah, sweetheart mine, with the pale, mute lips, We have had our measure of rue: The clouds were dark and the skies were fair,
- But you forever were true. And now as I sit in the dark alone
- I would give the world to know The way through the years to that faroff field Where simples for heartache grow
- Love fades, they say, when the pulse is old,

And I am threescore and ten

- But what I have learned with its bitter loss Lies far beyond their ken: For tomorrow they hide you away, sweetheart,
- In the graveyard out of my sight. So I heap the roses-God's roses round you And kiss you and say, "Good night. -Christian Advocate.

He cago Tribune. wore a hat well back on his head and showed a long, horselike face, with a hooked nose and one blind eye. About him was a cupe such as men wear over their evening clothes. All his garments were of a fine cut and quality, but worn with a noticeable negligence.

It was exceedingly curious, but as Westerly approached this man he felt a fear of him-not such a fear as one may be excused for feeling at meeting a stranger in an unlikely place at a late hour, but a fear of the nerves. It seemed to him that if, by any chance, that man were to touch him he would faint. He moved as far away from him as the lanits of the footpath would permit, and passed him hastily, a coldness stealing along his veins as he did so. The man merely smiled in a sardonic fashion, lifting the eyebrow of the blind eye and dropping one corner of his mouth. It was an indescribable smirk and filled Westerly with aver-

sion. To the newspaper man's unspeakable annoyance the man followed him along the streets to his home, and after he was in his room he peered out of the window and saw him standing on the sidewalk looking up. Actually it seemed to him that he must shriek aloud for protection from this silent man. But he controlled himself and

went to bed and slept-after a time. The next night he confessed to some apprehension as he approached the bridge, and he looked out anxiously for his dread companion of the night before. He was not to be seen anywhere. But at about the center of the bridge there he was, looking at Westerly with that one haunting eye. Again be grinned. Again be followed Westererly to his house and again he stood

without and stared up at the window, This went on for nearly three months. If by any chance the young editor went home later or earlier than 3, he had the privilege of going his way alone, but if the bour was 3 the man was there, watchful and sardonic and silent as the tomb. At times Westerly thought of addressing him, but whenever he strove to do so his tongue clove to the roof of his mouth. He evaded him at times by changing the hour of his bomegoing or by riding on the street car, but somebow he was insistently drawn back to the bridge and the Three o'Clock Man, as he denominsted him. He sometimes wondered if he would see the man upon the bridge if he were to pass in a car, but band performed on the stage. society. But there is no need to go into that. The point is, he found out these two gratifying matters in one day and, walking home in a state of considerable exultation, noticed the Three o'Clock Man with less impatience than usual.

"Our acquaintance is ended, my uncanny friend," he thought. "Tomor row you may keep tryst, but I will not. I will walk abroad at Christian hours and leave you to your unholy habits." Thinking these things, he passed the creature, and it seemed to him that the smirk on his face was even more than

usually offensive. So sure was he that the unwelcome acquaintance with this man was over that he did not even look from his window that night to see if he were watchhimself in his bed with more of happiness in his mood than he had known for years. He fell into a light slumber, from which he was aroused by the impression that some one was looking at him. He opened his eyes and stared mitigated by a street lamp across the street, which, owing to the lifted shade, shone clearly into the room.

The feeling that some one was looking at him grew to a certainty even before Westerly's sleep weighted eyes beheld the tall and careless figure of the not to be the remotest danger of an Three o'Clock Man standing by his extra that night, and the telegraph bed. If the man had been repugnant to him before, he seemed hideous now. He seemed to convey some horrible threat by his presence. What was it? Madnessy

Mabel's Little Sister.

When you have wanted a little sister very, very badly and when the little sister finally arrives, you are apt to love her far better than anybody else could possibly love her, even your father and mother. Mabel was 7 years old before the long wished for little sister arrived. The first rapture of really having her was dampened somewhat

by the incessant crying of the baby. For herself Mabel didn't mind. Anything the baby did was perfect, but, oh, would the others, who couldn't, of Arlington and Winchester course, worship "little sister" the way Mabel did, get tired of it? One day when the baby had almost screeched her little head off, and all in that incon-

"You don't mind her crying so very much, do you, mamma?" she said earnestly. "She's so little, you know, and she can't help it yet, really and truly she can't. Please, please put up with it for my sake. And, oh, mamma, no matter how hard she cries you won't -now promise me you won't, mamma -send her away!"-New York Sun.

A Long Way Round.

What is the most roundabout journey that the absence of proper steamship communication entails on the inhabitants of any country? Surely it must be that described by our consul at Loanda, Portuguese West Africa. If one of the 6,000 whites of Angola or 1,700 Europeans in the Kongo Independent State, who so frequently need change of climate, wishes to spend a week or two in Cape Town-which should lie, even by slow steamer, only six days distant—he has to travel 8,000 miles from Loanda to Madeira, catch there a Cape steamer and journey for another fortnight the 4,800 miles to Cape Town. It thus needs fully a month's continuous traveling and 7,000 miles of it to reach a point only 1,600 miles from the starting point.-London Chronicle.

She Didn't Appear. One day not many years ago there appeared on the bill of a certain place of amusement the fact that Mr. and Mrs. Salvini would present an interest-ing feature on the programme. Mrs. Salvini's part in the entertainment was the task of working the stereo con from the gallery, while her husjust as important as that of her husband. A BUNKO POSTOFFICE.

After an existence of nearly 60 years a little postoffice in New York state that had its origin in a sort of political bunko game has ceased to be. A short time ago Arcadia postoffice, which was located in this village, despite the fact that Newark also has its own village postoffice, was officially closed by the government, and Postmaster John Dillenbeck turned over the property to Postmaster Richard P. Groat of the Newark office.

Away back in 1840, so tradition runs, Roderick Price, who wanted to see Arcadia grow to be a great town, made a visit to Washington with L. L. Rose, another Arcadia merchant, and labored hard to get a postoffice established at Arcadia. In their petition they seemed to state that Arcadia was distant three or four miles from Newark, but over the figure "4" in fine lattering was the figure "3," so that the petition really stated that Arcadia was "3 or 3-4 miles" distant from Newark. Threequarters of a mile is the actual distance

The postoffice officials failed to detect the little figure, and Arcadia secured her postoffice. Ever since then mail has come daily for dispatch to the towns roundabout. Newark postoffice receiving the village mail. On the maps Arcadia appears as a separate village; but, as a matter of fact, it has been a part of Newark nearly 50 years.-Buffalo Courier.

An Amusing Case.

An amusing litigation between Sandow, the strong man, and Mr. Harry Leigh, a professional planist, was recently brought to a conclusion. Sandow had engaged Mr. Leigh to assist at an exhibition which he was giving at the Empire theater in Liverpool. The musician's duty was to impersonate Paderewski and, after giving a short musical recital, to sit tight on his stool, which was attached to the instrument, while Sandow carried both piano and performer off the platform. This entertainment had been given without mishap during a tour of some length. But on this particular occasion, while the strong man was carrying his double burden off the stage, he shot both the instrument and the artist over his head, smashing the former and injuring the latter. For this uptoward incident Mr. Leigh claimed damages, maintaining that at the time when Sandow attempt d to do the accustomed feat he was exhausted by several previous displays of his physical prowess. The strong man, on the other hand, vigorously denied this impeachment and asserted that he had tripped on a crease in the carpet which it was Mr. Leigh's duty to have removed. After some deliberation the jury returned a verdict in favor of the plaintiff and awarded him \$625 by way

of compensation.

There are eels that are the most palatable of all fish that swim, and eels that are not fit to be eaten. The habitat of the eel makes the fish delicious or repulsive. Where it lives affects it more than its habitat does any other fish. The eels that are bred and lie in mill ponds, or in the muddy bottoms of fresh water streams, or in "mudguts," are to be regarded as so much carrion and are fit only for crab bait. It's the same way, though not to such a great extent, with catfish, and even the shad, the prince of table fishes, is unfit to be eaten when taken in the muddy waters and coze of the up streams. Eels that are caught in clear salt water, on the hard and sand bottom of the flats, well down the rivers, are delicious for table use.-Baltimore

Oklahoma's Wheat. Oklahoma enjoys the unique distinct tion of being the only state or territory

cast of the Rocky mountains which produced more wheat in 1899 than in 1898. The government statistician at Washington gives Oklahoma credit for 1,218,000 acres sown with winter wheat and a crop of 10,202,000 bushels. Only 12 of the 45 states of the Union r ore wheat than Okiahoma did to ear. The prominent grain sta

The Craving For Stimulants. The blood normally contains stimulants, and that these stimulants exercise a favoring influence on function and conduce to and may even be a necessary factor in the production of the feeling of well being explains the widespread liking in man and beast for stimulating substances. This liking, amounting often to a craving, is the expression of a great physiological principle. When health is perfect, when the blood is well provided with its proper stimulants and not overcharged with depressants, there is no craving for extraneous stimulants, such as alcohol, tea or coffee, but when the blood is defective in the one or surcharged with the other then is felt the desire for the glass of wine or the cup

In order to obviate this desire the body should be kept at the highest level of health. The more perfect the health the more perfect will be the composition of the blood in respect to both physiological stimulants and deleterious toxins. A blood properly constituted in these and other respects will exercise a gentle stimulant action on the nervous system and induce a condition of mild physiological intoxication, which expresses itself in a feeling of well being and happiness-a condition that cannot be bettered.-Lan-

Professor Du Bois cites many individual cases in support of his somewhat bitter deduction, one of the most striking being the experience of a graduate of the University of Pennsylvania.

> This young colored man took a course in mechanical engineering, was an apt student, was well recommended and by reason of his excellent record obtained a situation through an advertisement. He reported for work, remained only a few hours and was then discharged for the simple reason that his skin was not white. The experience was repeated several times until he became utterly discouraged. He is now a waiter in the University club. where he is forced to serve white fellow graduates.

He Read Caine.

While Hall Caine was in this country several years ago the Aldine club of New York city dined him. Among those invited to meet Mr. Caine was one of the most popular of our American authors. Soon after the dinner began dinner cards began to circulate with requests for autographs. The author in question whispered to his neighbors:

"I'm going to send my card up to Mr. Caine as soon as I can, for I am down for a speech later on, and I want to be able to say that I've read something that Caine has written."-New York Mail and Express.

THE FIRST FIRE OF THE SEASON.

How it leaps in dance excited, How it sleeps in trance delighted, How it looms in liquid shining, How it glooms in wan declining, While around the hearth we gather, One and all, In the bleak and windy weather Of the fall!

Friendly flame, remote Chaldean Seers of name effaced. Sabean Shepherds in the elder ages, Persian bards in mystic pages, Thee adored, for so divinely Streamed thy light, Half we follow and enshrine thee

Spirit bright!

Dear the friends each heart remembers. As in cheer we stir the embers, Bid the ash renew its beauty. Sparkle, flash and glow till duty. Through the comfort of the hour,

Woos our soul, And we deem its sterner dower Life's best goal.

So we dream not visionary, When we deem the missionary Household fire, once more relighted, Blazing higher the while united, Round the hearth of home we gather, One and all,

Landlord Goes to Collect His Rent and Instead Gets Collected Himself.

••••••

"No rent again this month! This is the third time it has happened within the half year. I'll go there myself and door!" get the money, or I'll know the reason why."

Matthew Deane was in particularly bad humor this raw December morning. Everything had gone wrong. Stocks had fallen when they ought to have risen, his clerk had tipped over the inkstand on his special and peculiar heap of paper, the fire obstinately refused to burn in the grate—in short, nothing went right, and Mr. Deane was consequently and correspondingly cross. "Jenkins!"

"Yes, sir."

Go to the Widow Clarkson and tell her I shall be there in half an hour and expect confidently-mind, Jenkins, confidently-to receive that rent money, or lunch. else I shall feel myself obliged to resort to extreme measures. You under- of your power." stand, Jenkins?" "Certainly, sir."

"Then don't stand there staring like an idiot!" snarled Mr. Deane in a sud- of thing any longer." den burst of irritation, and Jenkins disappeared like a shot.

Just half an hour afterward Matthew Deane brushed the brown hair just gray dress greedily and walked up and sprinkled with gray from his square down the room pettishly. yet not unkindly brow. Putting on his fur lined overcoat, he walked forth into the chilly winter air fully determined figuratively to annihilate the defaulting Widow Clarkson.

It was a dwarfish little red brick house, which appeared originally to have aspired to two storyhood lot, but, cramped by circumstances, had settled down into a story and a half, but the windows shone like Brazilian pebbles, and the doorsteps were worn by much scouring. Neither of these circumstances, however, did Mr. Deane remark as he pulled the glittering brass doorknob and strode into Mrs. Clark-

"I have called to see your aunt, Miss Mellen."

"I know it, sir, but as I am aware of her timid temperament I sent her I prefer to deal with you my-

Mr. Deane started. The cool audacity of this damsel in gray, with scarlet ribbons in her hair, rather astonished him.

"I suppose the money is ready?" "No. sir; it is not."

"Then, Miss Olive-pardon me-1 must speak plainly, I shall send an offi-

Olive's cheeks had reddened, and her eyes flashed portentously. Mr. Deane turned toward the door, but ere he knew what she was doing Olive had walked quietly across the room, locked the door and taken out the key. Then

Mr. Deane had opened his mouth to remonstrate. but Olive enforced her words with a very emphatic little stamp of the foot, and he was, as it were, stricken dumb.

"You are what the world calls a rich nan, Mr. Deane. You own rows of touses, piles of bank stock, railroad thares, bonds and mortgages—who thows what? My aunt has nothing. I support her by copying. Now, if this case he carried into a court of law, my poor alling sunt will be a sufferer. You

would emerge unscathed and profiting. You are not a bad man, Mr. Deane; you have a great many noble qualities, and I like you for them." She paused an instant and looked intently and gravely at Mr. Deane. The color rose to his cheek. It was not disagreeable to be told by a pretty young girl that she liked him, on any terms, yet she had indulged in pretty plain speaking. "I have heard," she went on, "of your doing kind actions when you were in the humor for it. You can do them and you shall in this instance. You are cross this morning, you know you are! Hush, no excuse! You are selfish and irritable and overbearing! If I were your mother, and you a little boy, I should certainly put you in a corner until you promised to be good."

Mr. Deane smiled, although he was getting angry. Olive went on with the utmost composure:

"But as it is, I shall only keep you here a prisoner until you have behaved and given me your word not to annoy my aunt again for rent until she is able to pay you. Then, and not until then, will you receive your money. Do you promise? Yes or no?"

"I certainly shall agree to no such terms." said Mr. Deane tartly.

"Very well, sir; I can wait." Miss Mellen deposited the key in the pocket of her gray dress and sat down to her copying. Had she been a man Mr. Deane would probably have knocked her down; as it was, she wore an invisible armor of power in the very fact that she was a fragile, slight woman and she knew it.

"Miss Olive," he said sternly, "let us terminate this mummery. Unlock that

"I shall shout and alarm the neighborhood then or call a policeman." "Very well, Mr. Deane. Do so if you

She dipped her pen in the ink and began on a fresh page. Matthew sat down, puzzled and discomfited, and watched the long lashed eyes and faint ly tinted cheeks of his keeper. She was very pretty. What a pity she was so obstinate!

"The clock has just struck 12."

"I heard it." "I should like to go out to get some

"You promise?" "I do, because I can't help myself."

BAKE THEMSELVES ALIVE.

Russian Fanaties Thus Obtain Release From Trouble.

Baking themselves in huge roaring ovens is the climax of emotional enthusiasm and self sacrifice of a strange sect of Russians. They are the Begonny, and they live in the village of Ternowo, near Tiraspol.

The sect's origin was rather political and economical than religious, their agitations having always been directed toward greater personal liberty and political power for individual members

They demand the abolition of documents for proving identity and also the port. They repudiate compulsory military service, and if forced to bear arms they are liable to emotional enthusiasm, leading to self sacrifice. The form of death which they adopt is usually burial while alive, but occasionally it is self destruction by fire.

When the last great sacrifice of sect was made, the people adopted the voluntary cremation method as a means of getting an eternal release from their troubles. On a single day four families went out from a village and did themselves to death. A huge oven was built, and into it those who voluntarily decided to die plunged themselves.

The people who lacked the necessary enthusiasm or strength of mind or who felt that they were not worthy of attempting the great achievement knelt and prayed while they wept for their relatives and friends, whose charred bones they kissed in au ecstasy of affection and admiration.

The Doctors Disagreed.

Some Vienna savans were lately confronted with a language difficulty. According to the Independance Belge, a conscious in a street at Presburg and was conveyed to the hospital at Vienna, where she recovered consciousness and began to speak in a language which no one present could understand. The doctors came to the conclusion that the young woman was a native of an eastern country.

Consequently some professors from the oriental school were called in, and they were all agreed that the girl did not speak a correct language, but a dialect. The professor of Persian held that she spoke a Persian dialect and that he understood it. Another professor was of opinion that it was an Abyssinian dialect. A third was convinced that it was a Turkish patois.

Since the savans were not agreed the police deemed it necessary to make inquiries, with the result that the stranger was proved to be a Hungarian who had escaped from a prison and who did not understand a word of Persian. Abyssinian or Turkish.—London Globe.

Raising Leeches.

Leech farmers go about their busisess in an interesting way. Having fenced and watered a suitable meadow, they proceed to sow it with leeches by scattering them broadcast on the land from sacks containing 15,000 leeches each. All that is now necessary is to provide for the crop plenty of water and plenty of blood. The usual meth-od of providing the latter is to drive old horses and cattle into the inclosure, but sometimes fresh blood from a slaughter house is supplied.—Chicago

Equally curious is the following on spirits, which he divides into "animall," "vitall" and "naturall:"

"The animal spirit hath taken his seat in the brain. It is called animal because it is the life, but the chief and prime instrument thereof. Wherefore it bath a most subtle and aery substance. This animal spirit is made and harbored in the windings and foldings of the veins and arteries of the brain, brought thither sometimes of the pure air or sweet vapor drawn in by the nose in breathing. The vital spirit is next to it in dignity and excellency, which hath its chief mansion in the left ventricle of the heart. The natural spirit, if such there be any, hath its station in the liver and veins."

Describing "certain juggling and deceitful ways of healing of cures by such means as fear, surprise and even by music for spider bite, the music causing the patient to dance so lustily that he shakes all the poison out of his system." he sums up some of those heroic remedies thus: "I would not cast the patient headlong out of a window, but would rather cast them sodainly, and thinking of no such thing, into a great cistern filled with cold water, with their heads foremost. Neither would I take them out until they had drunk a good quantity of water, that by that sodain fall and strong fear the matter causing the frenzy might be carried from above downward from the noble parts to the

in such a case."

He also gives some grewsome facts connected with the preparation of "mummie" when he says: "Certain of our French apothecaries, men wondrous audacious and covetous to steal by night the bodies of such as were hanged and embalming them with sait and drugs they dried them in an oven so as to sell them thus adulterated instead of true mummie, whereupon we are thus compelled, both foolishly and cruelly, to devour the mangled and putrid particles of the carcasses of the basest people of Egypt, or of such as are hanged, as though there were no other way to help or recover one bruis-

Mr. and Mrs. Henry B. Pierce, of 125 Pleasant street, Arlington, made the marriage of their elder daughter, Miss Mande Frances, a memoriable occasion in the social life of their residential town. Not quite a thousand invitations were issued and from the appearance of the audience gathered in the church and the crush which was at the reception, it would seem as though quite everybody had accepted the hospitality extended. As far as Arlington is concerned it would be almost easier to enumerate those not present than the exceedingly large and distinguished concourse of citizens present, representing as it did the church and social circles with which the Pierces are identified, the official life of the town as well as the professional, together with many guests from Boston and its suburbs. It was the largest wedding and reception of local note for many years.

Miss Pierce married Mr. Albert Murray Walcott, son of Mr. Geo. P. Walcott, of Pleasant street, Belmont. Both have a large circle of young friends among whom they enjoy enviable popularity, so it was not strange that their wedding should be so largely attended and also marked by all those expressions of re gard such occasions provide.

The ceremony took place on Tuesday evening, Jan. 16th, in the Unitarian church, Arlington, at eight o'clock. This large audience room was filled in every part and the sight was an inspiring one, especially as all guests were either in full evening dress or reception costume, the church beautifully decorated by Rawson, while there was also the music of the organ with the usual wedding féte music skilfully played by Mr. Phippen, of Winchester. Most artistic in effect was the outlining of the paneling back of the pulpit with laurel, while the spacious platform space was a mass of towering palm trees and other tropical plants, with here and there a glowing bush of azaleas. The officiating clergymen, with the bridegroom and his best man, Mr. Clarence O. Hill, of Belmont, met the bridal cortege at the step of the altar. The bride was on the arm of her father, who gave her away, and was preceded down the isle by the ushers, the bridesmaids and the maid of honor. The Rev. Frederic Gill, of the Unitarian church, preformed the ceremony after the Episcopal form, with a beautiful prayer by Rev. S. C. Bushnell, of Pleasant street Cong'l church. It was all too quickly over for friends who enjoyed the effectiveness of the ceremony, and the cortege left the church, the bride on the arm of her tall and fine appearing young hus- and ornamental. Two checks of five stetter, Mrs. C.S. Bacon, Mrs. F. B. Eastman, laband. She looked lovely and wore an exquisite combination of accordion pleated chiffon, built on white wilk, with tenic and waist of white lace. The yoke and sleeves were of tucked chiffon, while the veil was of tulle. Her bouquet was of bride roses and valley lilles.

The only sister of the bride, Miss Edna Caroline Pierce, was maid of honor, and was also in a lovely frock of white crepe de chine over white silk, trimmed with liberty silk and lace with silk applique. She carried white roses, and the bridesmaids bouquets of pink roses, to harmonize with their dresses, which were of accordion pleated pink organdie with an apron tunic composed of the organdie and insertions of wide serpentine lace; the deep yokes were of white lace. The bridesmaids were Miss Hattle Severence, of Brookline; Miss Caroline Ellard, of Winchester; Miss Elizabeth Colman, of Arlington; Miss Myrtle Walcott, of Belmont. They wore pearl bar pins, and the maid of honor a pearl crescent, the gifts of the bride, while the ushers' favors were similar, being pearl stick pins. The gentlemen serving in the capacity just mentioned were Mr. Albert H. Goodwin and Mr. Harold Rice, of Arlington; Mr. C. C. Caldwell, of Chelsea; Mr. Arthur Harlowe, of Newton; Harold B. Horn, of Belmont; Mr. Kilby Smith, of Waltham.

The precincts of the church were thronged with carriages, this service being in the efficient charge of Mr. H. M. Chase, of Arlington, and as soon as possible guests were transferred from the church to the Pierce residence, which has for many years been considered one of the finest in Arlington. Here the crush was so brilliant and bewildering that much of the detail of its beauty was lost amidst such throngs of people as crowded what is a spacious mansion for ordinary occasions,-but this was the occasion extraordinary.

W. W. Rawson's men made a lavish and beautiful display of their skill as decorators. The southern smilax was used in large quantities on the stairway and in the hall and a frieze about the walls of the reception rooms and din ing room were enhanced in effect by being intertwined with carnation pinks. In the long drawing room, where the recelving party stood, the pinks were white and the other flowers used were white azaleas; in the smaller reception room the pinks were pink, with a mass of these fragrant beauties banking the mantle, while in the dining room the same effect was obtained by using the red pinks. Palms, rubber trees and other decorative plants and shrubs, with fesrooms afforded the most pleasing effect and the whole was of great beauty and taste. Not only were these rooms thus trimmed but a small morning room, used ction with the dining room in serving the sumptuous wedding supper,

chandeliers and gift tables all decked with flowers and greenery. For a local florist to furnish such elaborate decorations is a like compliment to the town and to Mr. Rawson. All these attractions with the beauty which rich toilettes add to such functions, was further enhanced by the well known Ladies' Fadette Orchestra, stationed in the upper hall, screened by tall palms.

The bridal couple were supported in the somewhat arduous duty of receiving such a large concourse of guests, by their parents and the maid of honor. Mrs. Pierce made a handsome appearance in a lavender princesse gown, which was strikingly becoming, and trimmed with white jets and lace. Mrs. Walcott wore an expensive and handsome toilette of black lace over white silk, the waist having bands of white point luce and a touch of color given by a rouleau and bow-knot of cerese velvet corn braided in strands; fox skins and other ap outlining the yoke-like effect of the waist. All of the party were most cor dial and pleasantly informal in getting the guests, the gentlemen sustaining this role with more than usual success. They received at the head of the long drawing room in front of a background of palms and rubber trees.

All during the reception the dining societs income room and hall at the top of the house was crowded beyond compare. In the first instance the effort was to be served the delicious supper provided by the of booth typined a laundry. caterer, and it was quite a wonder, although the number of waiters was large, they got through their duties so successfully. Everything was as choice as possible and besides the other decorations the table was adorned by a great bunch of "Jacque" roses. The assembling of guests in the hall was to inspect the su perb showing of wedding gifts. These were displayed with much taste and ingenuity upon three large tables and four genuity upon three large tables and four with the Cuban colors, while the attendants smaller ones, while rests built about the were tastefully dressed to represent the flag of room were also utilized to exhibit the tee was Miss Sunergren, Miss Jerome O. =The "Colonial Supper" given in the vestry of the Congregational church, last evening, was a novelty which appealed to the people of that church and secured considerable patronage outside, in spite of the many claims upon people this week and attractions elsewhere. The vestry was attractive to the last degree. In the main vestry tables were set in the difference being the candles used to light it; but in the ladies' parlor everything was suggestive of colonial times. The tire place, built by Mrs. Prest. Crosby, in the corner, the chairs, tables, clock, dishes, kitchen utensils, etc., all were reminders of a time when conveniences were few and privations many. Much of the china shown here was rare and valuable. Whoever arranged the room after gathering so much that is quaint and curious, deserves credit for taste displayed. The supper was "old-fashioned," if that means a toothsome and enjoyable meal, and was well served by laules costumed as were their grandmothers, and many of them never looked more attractive. After supper came a social time, interspersed with old-time music, in which a strong chorus of young voices led, followed by older people more familiar with That the tunes. About thirty of the company wore costumes, and among them were some fine ones and valuable. Variety was given by "Grandma's Advice," prettily sung by Dolly Borns: "Annie Laurie," by Miss Grace Lockhart, with charming expression; two quartette numbers CHINESE LAUNDRY-Willing Workers, in cos. by Miss Lockhart, Miss Bennett; Messrs. Fowle and Bennett. It was a large party and perhaps the most social of any in a long time.

> "In the complexity of our modern life, forcing a departure from old-time i eas, we need a new theory of religion to bring to busy men, absorbed in the whirl of affairs, a rational view of the connection of that life with the demands of God upon all, and I want to present a working theory that will work in the life of every man. The first question is, will religion fit every event in the life of the man who wants to be good; and the answer is yes,—for religion is solely the art of being and doing good. Everything that is good is godlike, and influences our lives towards God. But our modern lite, that is full of this, needs with God by faith, so that the act will be as unto the Lord Jesus. In Christian science, and all that goes with it, the speaker saw a reaching out after this steadying influence; but God has no fresh revelation to give us or new light on an old truth. Paul was talking about every day affiles and is compliance with his injunction possible? Try ceasing to divide secular from religious affairs. By striking examples of a mother's votion, a news boy's help to ignorant immigrants on a railrood train, the speaker illustrated his meaning, and showed, whither recognized or not, these acts were "as unto the Lord Jesus. The legend of St. Anthony, sent by the angel self in the person of a poor coubler, who "made shoes as though the Lord Jesus was to wear them," was another striking illustration. he world needs to realize is the motive behind the Christ-like act.

Hard Wood Floors vs. Carpets.

Before buying new carpets this spring just con. sider what a saving and satisfaction there is in a hard wood floor. A carpet costs practically as much as a hard wood floor. It has to be thoroughly swept about s often, causing much back-ache and dust, and once or twice a year has to be taken up, beaten, overhauled, and put down again. All this wears out he carpet as well as the housekeeper. On the other hand a hard wood floor is much easier to take care of, is more cleanly, more satisfactory, more economical, more up to-date and better in every way. We have put down a good many hard wood floors in recent years, of quartered oak, plain oak, maple, birch, hard pine, etc. Write us to call and estimate.
